

## Refugio Amazonas 4D3N - Soft Adventure Program

### DAY 1

#### **Arrival & Reception by Guide**

Our guides are biologists, tourism professionals, or community members. Unless noted otherwise, our guides speak English. We assign guides at 10:1 ratio in Refugio Amazonas. This means groups smaller than 10 people will be merged with other groups under one guide. If you would like a private guide or a guide in a language other than English please let us know.

#### **Transfer Airport to Puerto Maldonado Headquarters**

Upon arrival from Lima or Cusco, we will welcome you at the airport and drive you ten minutes to our Puerto Maldonado headquarters. While enjoying your first taste of the forest in our gardens we will ask you to pack only the necessary gear for your next few days, and leave the rest at our safe deposit. This helps us keep the boats and cargo light.

#### **Transfer Pto Maldonado Headquarters to Tambopata River Port**

Skirting Puerto Maldonado, we drive 20 kilometers to the Tambopata River Port, entering the Native Community of Infierno. The port is a communal business.

#### **Transfer Boat - Tambopata River Port to Refugio Amazonas**

The two and a half hour boat ride from the Tambopata Port to Refugio Amazonas will take us past the Community of Infierno and the Tambopata National Reserve's checkpoint and into the buffer zone of this 1.3 million hectare conservation unit.

#### **Boxed Lunch**

#### **Orientation**

Upon arrival, the lodge manager will welcome you and brief you with important navigation and security tips.

#### **Dinner**

#### **Caiman Search**

We will be out at the river's edge at night, scanning the shores with headlamps and flashlights to catch the red gleams of reflection from caiman eyes.

#### **Overnight at Refugio Amazonas**

## **DAY 2**

### **Breakfast**

#### **Oxbow Lake Visit**

We will paddle around the lake on a canoe or a catamaran, looking for lakeside wildlife such as hoatzin, caiman and horned screamers, hoping to see the otters which are infrequently seen here. You will also be rewarded with overhead sightings of macaws.

#### **Canopy Climbing**

Replicating the daily work of macaw researchers, we will climb a 30 meter tree with a rope, harness and jumar. From this vantage point we will have a macaw's eye view of the forest. This demanding exercise is perfectly safe and requires no previous experience.

### **Lunch**

#### **Brazil Nut Trail and Camp**

A few minutes hike from the lodge is a beautiful old growth patch of Brazil Nut forest that has been harvested for decades (if not centuries) where the precarious remains of a camp used two months a year by Brazil Nut gatherers can still be experienced. We will be demonstrating the whole process of the rain forest's only sustainably harvested product from collection through transportation to drying.

#### **Canopy Tower**

A thirty minute walk from Refugio Amazonas leads to the 25 meter scaffolding canopy tower. A bannistered staircase running through the middle provides safe access to the platforms above. The tower has been built upon high ground, therefore increasing your horizon of the continuous primary forest extending out towards the Tambopata National Reserve. From here views of mixed species canopy flocks as well as toucans, macaws and raptors are likely.

### **Dinner**

#### **Night walk**

You will have the option of hiking out at night, when most of the mammals are active but difficult to see. Easier to find are frogs with shapes and sounds as bizarre as their natural histories.

### **Overnight at Refugio Amazonas**

## **DAY 3**

#### **Parrot Clay Lick**

A fifteen minute boat ride and sixty minute walk from Refugio Amazonas is a clay lick used both by parrots and parakeets. From a blind you will see parrots and parakeets descend on most clear days to ingest the clay on a bank. Species such as Dusky headed and Cobalt winged Parakeet descend at this clay lick. With luck we will also see some or all of the following species in the early morning rush: Mealy and Yellow-crowned Amazons, Blue-headed Pionus, Severe macaw and Orange-cheeked (Barraband`s) Parrot. We visit the lick at dawn, when parrots are most active or in midmorning or early afternoon, when they are active.

## **Breakfast**

### **Mammal Clay Lick**

Twenty minutes walking from Refugio Amazonas is a peccary clay lick. These wild rain forest pigs show up in herds of five to twenty individuals to eat clay in the late morning. Chances of spotting them are around 15%, but well worth the short hike. Other wildlife also shows up including deer, guan and parakeets.

## **Lunch**

### **Sea-Kayaking the Tambopata River**

No previous experience is required. A boat will bring us upriver and then we will paddle down a portion of the Tambopata River with some rapids, although most of the progress presents low difficulty. At the shores we will observe fragmented parts of the forest and come across with locals that work at the few farms in the region. To finish our experience, we'll stop on a sandy beach and take a well deserved bath. No experience required, only swimming knowledge.

## **Dinner**

### **Tambopata National Reserve Lectures**

Nightly lectures prepared by the staff of Refugio Amazonas cover conservation threats, opportunities and projects in the Tambopata National Reserve.

## **Overnight at Refugio Amazonas**

### **DAY 4**

## **Breakfast**

### **Transfer Boat - Refugio Amazonas to Tambopata River Port**

### **Transfer Tambopata River Port to Pto Maldonado Headquarters**

### **Transfer Puerto Maldonado Headquarters to Airport**

We retrace our river and road journey back to Puerto Maldonado, our office and the airport. Depending on airline schedules, this may require dawn departures.

## **NOTES**

### **Included**

Programmes based on double occupancy. Includes all meal, accommodations, and services, all river transportation, and transfer from and to the airport of Puerto Maldonado.

### **Not Included**

International or domestic airfares, airport departure taxes or visa fees, excess baggage charges, additional nights during the trip due to flight cancellations, alcoholic beverages or bottled water, snacks, insurance of any kind, laundry, phone calls or messages, reconfirmation of flights and items of personal nature.

### **Boat Transportation**

All our boats are 20 foot long, roofed canoes with 55 hp outboard motors. Daily arrivals and departures from every port are scheduled to meet every airline's arrival and departure with a maximum two hour wait.

We reserve the right to change the order of activities.
