

TORRES DEL PAINE NP / ECO CAMP

Answer the call of the wild at EcoCamp Patagonia in Torres del Paine National Park, home of mountains that pierce the sky, azure lakes, blue and white glaciers, and endless expanses of plains and sky.

Eons of ice, water, wind, and tectonic forces have crafted this refuge for pure nature and adventure - Patagonia. Be awed by the spectacular granite peaks of Torres del Paine, come face to face with the immensity of Grey Glacier, hike through the forests of French Valley, encounter guanacos, rheas, and condors on nature walks, trek through rolling pampas, and fall in love with a land that both challenges and inspires everyone who visits. All this and more awaits at EcoCamp Patagonia, where rustic comfort and adventure meet.

Weather & Climate

Even in summer, **weather in Torres del Paine is hard to predict**, so be prepared for unexpected rain, and strong, cold winds (up to 130 km/hr).
