

EXPLORE THE SACRED VALLEY BY ELECTRIC BICYCLE

The Sacred Valley of the Incas is the perfect playground for out-and-out adventure. Its specific geography, climate and bountiful nature combine to offer a biking haven, with routes that also traverse through rural communities, so you can experience a side of local culture on your intrepid journey through the Valley.

You can't help but feel a great sense of reward as you pedal along these varied trails, passing stunning landscapes in the Sacred Valley. Not only is this form of travel fun and full of thrills, it's also safe and sturdy, thanks to the smart support system of our hi-tech electric bicycles.

En route, we will visit a typical Chichería - a sort of tavern where the traditional, corn-based Andean drink of Chicha is both brewed and enjoyed. We will also stop at the Valley Brewery, an initiative that was launched as part of a social project and today is renowned as one of the best artisan beer breweries of Peru. Ready to start pedaling? Let's go!
