

# PARACAS ISLANDS BY PRIVATE YACHT

## Nature and sophistication

Sail across the waters of the Pacific Ocean aboard an exclusive private yacht and observe, up close, the incredible marine biodiversity hosted by the three most important islands off the Paracas peninsula.

Discover the mysterious Candelabro geoglyph, associated with the enigmatic Nasca lines, and visit San Gallán Island, considered one of the world's most beautiful and rich ecosystems, as well as a paradise for surfers thanks to its "five star" waves. Discover the Ballestas Islands, a unique attraction where visitors can observe at close quarters the largest concentration of sea lions and guano birds on this part of Peru's coast. And experience the Chincha Islands, as we drop anchor and enjoy a delicious gourmet lunch, followed later by an impressive sunset. The perfect finishing touch to an unforgettable journey.
