

LUQUINA

Luquina is the place but its people create the experience

Come and paddle a canoe with us on Lake Titicaca. We will leave from Puno and head for the Uros Islands, where you'll have time to meet the islanders before we board a motorboat for Luquina. A wonderful experience!

This small peninsula is home to a community which devotes itself entirely to your arrival, dressed in their finest clothes, dancing like only they know how... And there you are, astonished and expectant, ready to embark upon the experience.

That experience means sharing in the daily life of the community. And that is what their daily life is like: welcoming visitors from all over the world and making every visitor feel like they are the first. Ah! And if one day of activities isn't enough, stay the night in the village! We will prepare comfortable and warm rooms for you, furnished with everything you need.

Whether you choose to go out on the lake in a sailboat, walk up to the viewing point to appreciate the full splendor of Lake Titicaca, or you just want to sit on the lakeshore and enjoy the imposing scenery, the intense memories of the experience you live in Luquina will stay with you forever.
