Navigation to Grey Glacier is one of the captive excursions while visiting the National Park Torres del Paine. This 3 hours journey aboard our boat "Grey III" allows everyone to enjoy a unique compound of floral landscape, lush greenery and imposing mountains. After 1 hour of navigation and being witnesses of beautiful landscapes, we will reach the Grey Glacier front wall, the most important one inside the Torres del Paine National Park. At the present time this huge natural marvel with over 25 mts. height, has amazing colors and shapes, mysterious sounds that come from the inside, making it a overwhelming and spectacular natural event. The ship has a main cabin for 98 passengers and an outdoor deck to enjoy the outdoors. Our boat and its crew comply with all the requirements of the maritime authority, which includes 4 life rafts with capacity for 35 and 25 passengers each, plus a boat with and outboard motor for up to 20 passengers. The crew and tour guide on the vessel "Grey III" wait to offer our service and make your travel experience unforgettable.

We will drive about 45 minutes to the parking area of the Great Fall viewpoint. From that place, we start a simple trek. The landscape is of the Patagonian steppe, where it predominates, the Calafate (*Berberis Microphylla*), The Mata Barrosa (*Mulinum Spinosum*) and the marked burnt forests of Lengas (*Nothofagus Pumilio*) and Ñirres (*Nothofagus Antarctica*), that were burnt in the fire in 2011. We arrive at a viewpoint with an impressive view of Lake Nordenskjöld, with the Horns of the Paine behind in all their magnitude. Also to the left, we have an excellent view to Big Paine Mountain and to the right to Admiral Nieto. Back on the trail, we take a detour on the last stretch of our route and pass through one of the park's main waterfalls, the imposing Great Fall. After visiting, we go back to the Van and return to the hotel. The return leg lasts approximately 45 min.

We will drive about 45min towards the center of Torres del Paine National Park, where we begin our hike. It is a simple trek with a maximum height of 400 m.a.s.l, starting at 45 m.a.s.l. There is an incredible view of the Paine River and Lake Pehoé, with its turquoise colors facing the magnificent Paine Range. At the top of this viewpoint, with some luck, it is possible to see Condors. As a platform for taking off, juvenile condors are taught by their parents to undertake the flight or many times to rest on days that are not so windy in the conglomerate formations that originated there. After the descent we return to the hotel.

We will walk from our hotel towards Pingo River to start our trek on a flat path with slight ascents and descents. After a couple of minutes we will enter in a forest with view towards Big Paine and Cordón Olguín. An hour and a half later, will arrive at the viewpoint of "Chorrillo Los Salmones" named for the salmones which are possible to see descending downstream the waterfall. It is important to mention that this area is only possible to be visited with a certified hotel guide because its forest has not been affected by the last fires inside the park.

This is an excellent option to see most of the National Park being close to the hotel. First we will ascend the challenging path that leads to the Ferrier viewpoint; The path is very steep approximately 60 ° elevation and altitude is gained quickly (700 m.a.s.l). First we will cross the river before reaching the always windy viewpoint. Then we will enter a beautiful forest of Lengas (Nothofagus Pumilio). Here we will have spectacular panoramic views of the Glacier Grey and the icebergs floating on the lake, Paine Range, Paine River, Toro Lake, Pingo Glacier, among others. The descent is by the same path. This time only downhill, and then return to the hotel.

Suitable for almost everyone. This is a great alternative for passengers who have a couple of free hours and want to enjoy an interesting and eye-catching short trekk within Torres del Paine National Park.

This trail is located next to Administración CONAF, which is about 30 minutes driving from Hotel Lago Grey. There you will have a panoramic view of the amazing Paine Massif to the north and also the great "Toro" lake (which is the biggest lake in region) to the south.

The interesting and historic facts together with a rich diversity of plants and birds make this excursion a great opportunity to enjoy and learn about the area at the same time.
